

## **TUITION**

The Boyd School operates throughout the year offering programs during the traditional school year as well as during the summer months. Tuition costs are based upon the program in which the child is enrolled. The philosophy of The Boyd School is to include all expenses into one school year tuition. This practice is different from many other private schools where the cost of for example; materials, field trips and lunches, is priced and paid separately. The Boyd School tuition includes; extra lessons, materials, a Boyd School backpack, a Boyd School T-shirt, field trips and a catered hot lunch. We would encourage prospective families to compare our all inclusive approach to other private school tuition plans by including all the additional fees and lunch to their stated school year tuition.

Since our tuition is calculated based on the expenses related to a specific campus, you will be provided tuition information during your tour.
